01 · WHO WE ARE

A decade of turning ideas into digital success

A Surat-based digital partner building websites, mobile apps, marketing campaigns and brand designs that help businesses grow, since 2015.

DkTechnoLab Multimedia IT was founded in 2015 by **Ashish Kathiriya** and is a premier one-stop IT services provider based in Surat, Gujarat, India, with over 10 years of experience in the industry.

We deliver web development, mobile app development, digital marketing and graphic design under one roof. To date we have completed 1250+ projects for 900+ clients, including 850+ mobile apps and 450+ websites.

From business websites and mobile applications to enterprise-level software, our work is always built for flexibility, reliability and scale.

AK

Ashish Kathiriya

FOUNDER

Ashish founded DkTechnoLab Multimedia IT in 2015. Since then the team has completed 1250+ projects with a 94% job success rate across platforms.

Our Mission

Our mission is to empower businesses to reach their full potential by harnessing the transformative power of technology.

Our Approach

We combine technical expertise with creative vision to deliver exceptional digital solutions that drive business growth and customer engagement.

02 · SERVICE

Web Development

Crafting digital experiences that inspire and engage.

From fast static sites and WordPress builds to eCommerce stores, custom PHP applications and APIs, we design and develop responsive, SEO-friendly websites that turn visitors into customers.

Responsive by default

Layouts that work on mobile, tablet and desktop.

SEO-friendly code

Clean markup, structured data and proper meta tags.

Fast & secure

Optimised assets, HTTPS/SSL and secure coding.

Ongoing support

Updates, backups and new features after launch.

What we build

Six specialist services, one team.

01

Responsive & Static Websites

We study your requirements and share a custom design mock-up for approval, then hand-code a mobile-first website that loads fast, ranks well and fits your brand.

Design mock-up

Mobile-first

Speed & SEO

02

WordPress Development

Our deep PHP expertise lets us tailor WordPress to exactly what you need — a flexible site your team can manage easily, at a cost-effective price.

Custom themes

Plugins

WooCommerce

03

E-Commerce Websites

Sell products and services online with a user-friendly, SEO-friendly store built to turn visitors into buyers — with HTTPS/SSL so shoppers check out with confidence.

Cart & checkout

Payment gateways

Inventory

04

PHP Web Development

Robust, high-performance web applications — from custom websites and admin dashboards to enterprise platforms and APIs, built with the right technology.

PHP & Laravel

Admin panels

Integrations

05

Mobile Backend & APIs

Secure, scalable backends and APIs that let your apps, devices and systems talk to each other, so you ship features faster while keeping costs down.

REST APIs

Auth & roles

Push notifications

06

CMS Web Development

A custom CMS built around your workflow lets your team update, edit and publish content without technical help — responsive, SEO-optimised and secure.

03 · SERVICE

App Development

Bring your unique idea to us and watch it grow splendidly.

We design, build, test and maintain high-performance Android, iOS and Flutter apps for startups and enterprises.

 Android iOS Flutter

850+

MOBILE APPS
DEVELOPED

Mobile app services that cover it all

From first build to store launch and long-term care.

01

Android App Development

Kotlin & Java

Material Design

Play Store

Build a high-performance, reliable Android app that grows with your business — native apps for smartphones, tablets, wearables and Android TV.

02

iOS App Development

iPhone & iPad

In-app purchases

App Store

Reach the iPhone and iPad audience with a native app built around your exact requirements. We map the user journey first, then bring it to life.

03

Flutter App Development

One codebase

Custom UI

Cloud & APIs

A near-native experience on Android and iOS from a single codebase, saving you time and budget — secure, scalable and shipped to both stores.

04

Support & Maintenance

Bug fixes

OS & SDK updates

New features

Launch is only the beginning. We keep your app compatible with new OS versions and store policies, fix bugs quickly and add features as you grow.

05

Mobile App Testing

Functional & UI

Automation

Manual testing

Automated and manual testing that raises your app's quality, usability and security, catching bugs and performance issues before release.

Right approach

Native or cross-platform, for your users and budget.

High performance

Smooth, stable apps on clean, scalable architecture.

Tested & secure

Manual and automated QA for quality and data security.

Store launch

Play Store and App Store publishing, plus updates.

04 · SERVICE

Digital Marketing

Digital marketing that grows your business.

We become an extension of your team — a partner that understands your market and goals, rather than just an agency that executes strategies blindly.

Branding

Shape how customers see and remember you — logo, colour, messaging and every touch point.

Search Engine Optimization

Higher rankings on Google, Bing and Yahoo through technical optimisation, content and links.

Social Media Marketing

A noticeable presence on Facebook, Instagram, Pinterest and more that turns followers into customers.

WhatsApp Marketing

Bulk campaigns with rich media and click-to-chat lead generation, in the app customers use daily.

Email Marketing

Personalised emails and automated flows that build relationships and drive conversions.

SMS Marketing

Promotional and transactional messages for time-sensitive offers, reminders and alerts.

05 · SERVICE

Graphic Design

Graphic design that makes your brand stand out.

Logo design

Unique, impactful logos that capture your brand's identity and help you stand out.

Banner design

Eye-catching banners for your website, ads, social channels and print.

Brochure design

Brochures and catalogues that tell your story, from concept to print-ready files.

EVERY PROJECT INCLUDES

✓ Editable source files

✓ Multiple revisions

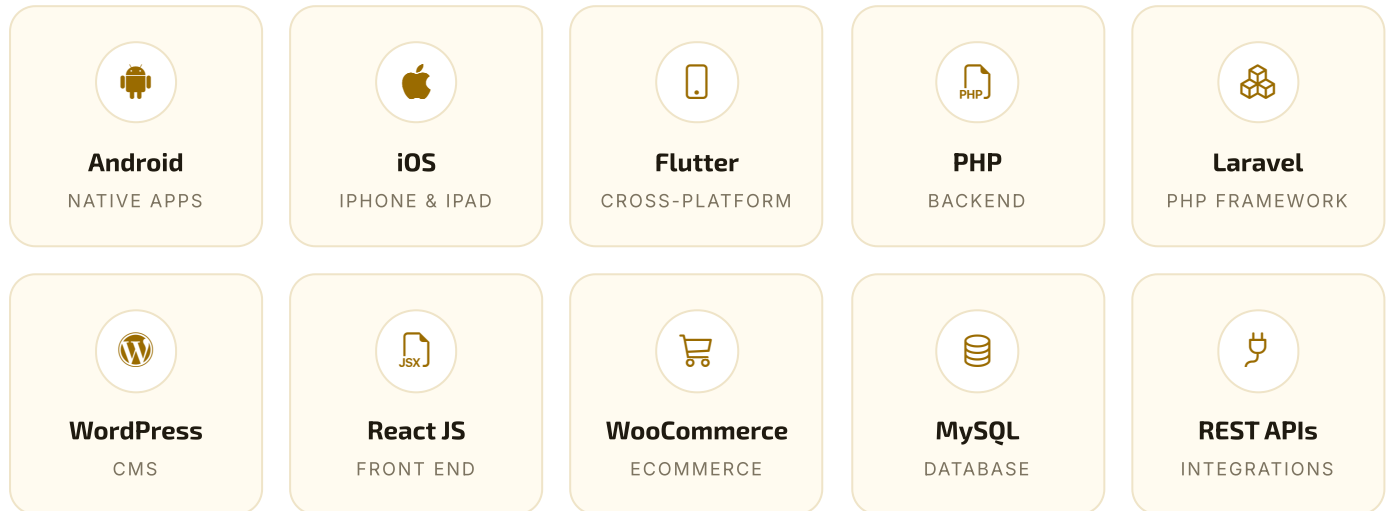

✓ Brand consistency

✓ Every size you need

06 · TECHNOLOGIES

The stack behind our work

Proven, modern technologies we use to design, build and grow your digital products — picked for your goals, budget and growth plans.

07 · HOW WE WORK

How we bring your ideas to life

A clear, transparent process that keeps you informed from the first call to launch day and beyond.

97%

DELIVERED ON TIME

93%

WITHIN BUDGET

01

Research

We study your business, audience and competitors to uncover real opportunities.

02

Strategy

We define scope, features, technology and a clear roadmap with milestones.

03

Experience Design

We craft intuitive, on-brand interfaces your users will enjoy.

04

Development

Clean, responsive code, tested across devices, with regular progress updates.

05

Launch & Support

Smooth deployment followed by maintenance, updates and improvements.

08 · WHY CHOOSE US

Why businesses choose DkTechnoLab

A dependable team, proven processes and a track record you can verify.

Everything under one roof

Web, app, marketing and design experts working together, so you manage one partner instead of four.

100% transparency

Clear quotes and regular progress updates, so you always know where your project stands.

On time & on budget

97% of projects delivered on time and 93% within the agreed budget.

94% job success

A consistently high success rate earned with clients on Upwork and Freelancer.

Post-launch support

Maintenance, updates, bug fixes and improvements long after your project goes live.

Local team, global reach

Based in Surat, working with brands and businesses across different corners of the world.

What our clients say

Feedback from clients we have worked with.

I have worked with Ashish on a few projects over the years and they have always provided excellent knowledge and expertise in the field of development.

DS

Dale Shirley

Client via freelance platform

DkTechnoLab team is very dedicated and understanding. They are very punctual and do their job well. We have hired DkTechnoLab team for regular jobs now.

AS

Aaron Singler

Client via freelance platform

DkTechnoLab team was very consistent in offering their help with my project. When I asked for their help with bug fixes in WordPress, they fixed my issue almost immediately. I appreciate a team that is so quick to respond...especially when they are in a different timezone.
